

Inform, Motivate & Equip

Very often, a compelling lesson has three elements present. The lesson should inform, motivate and equip.

Inform: Bring certain facts to bear. Connect the dots of reason. Emphasize various truths.

- Students know _____.

Motivation: Inspire desire within students to learn the information.

- Students want _____.

Equip: Provide the furnishings to enable students to act on the lesson.

- Students can act _____.

The presence of these three elements create a sound lesson.
